Introduction to the Oriented Object Programing

What you should understand is the answer of these questions:

- Before talking about OOP, tell me what I have studied before?
- Is OOP better than what I have studied before?

Introduction to the Oriented Object Programing

- Yes!!!! If it's better why you didn't talk about it from the beginning, You have wasted my time there (-_-) ?!
- Ahhh ok good :) now, please before starting, give me a general idea about OOP.
- What are those concepts?

Introduction to the Oriented Object Programing

- Emmm ok! let's start one by one, what's 'Encapsulation'?
- What about 'Inheritance' ?
- Good! now what about that last one?

GREAT! Let's talk Python now
