Looping through a dictionary

What you should remember is:

To loop through:

- **keys and values:** `for key, value in dic_name.items():`
- **keys:** `for key in dic_name.keys():`
- **values:** `for value in dic_name.values():`
- **keys (or values) in order:** `for key in sorted(dic_name.keys()):`
- **Set of values:** `for value in set(dic_name.keys()):`
