Files

Declaring a file

Declaring a file

What you should remember is:

- The syntax:
  with open('file_name', 'mode') as file:
     block of code…
- modes:
     'r' / 'rb': Reading / Reading binary.
     'w' / 'wb': Writing / Writing binary.
     'a': appending
     add '+': to read and write (Update)
