Functions

Defining and Calling functions

Defining and Calling functions

What you remember is:

- To define a function:
    - def fun_name(par1, par2,...etc):
    - def fun_name(par1, par2= arg2,...etc):
        #Bloc of code
- To Call a function:
    - fun_name(arg1, arg2,...etc)
    - fun_name(par2= arg1, par1= arg2,... etc)
